European Digital Identity Specialist Optimises Enrolment of its Certificate Solution for Digital Signing of PDFs

The New TC Business ID for Adobe: Perfecting Paperless Workflows

London, UK, 5th April 2009 – Digital identity expert TC TrustCenter has launched a new release of TC Business ID for Adobe with enhanced functionalities. The solution allows organisations to sign their PDF documents and personalised PDF forms and facilitates a new generation of digitised workflows.

With TC Business ID for Adobe, companies can enable their customers and partners to check the authenticity and integrity of PDF documents with simplicity and ease. With the highest possible protection against non-authenticated information, organisations will now be able to finally realise their vision of unlimited and efficient paperless workflows. Alongside the optimisation of internal workflows like e-invoicing, further application areas include the issuing of electronic confirmations and the documentation of quality management and approval procedures.

“With our new version of TC Business ID for Adobe we have simplified the enrolment process. The personalisation of the token and request of IDs can be carried out swiftly by customers online,” explains Dr. Rolf Lindemann, Director Product Management at TC TrustCenter. “We also now offer test versions, which are simple and fast to request online.”

Based on the integration of version 1.6 into TC TrustCenter's TC Enterprise ID solutions family, companies can directly sign their PDF documents and PDF forms within electronic workflows, while using TC Enterprise ID, TC EID QuickStart or TC ID Store to manage the IDs.

With TC Business ID for Adobe recipients can very easily verify and display the integrity and authorship of PDF documents using the free Adobe Reader – without the need for any manual intervention or even additional plug-ins. As TC Business IDs for Adobe are issued by an Adobe-signed TC Adobe Root, every Acrobat Reader will recognise that TC Business ID for Adobe is from a trusted source.

TC Business ID for Adobe can be issued to individuals or groups within a company or organisation and is available for small, medium (TC Business ID for Adobe for single user workstation - Token) and large signature volumes (TC Business ID for Adobe for signing server – HSM). The solution is 100%-compatible with Adobe Life Cycle ES, Adobe Acrobat Professional and Acrobat Reader. The owner named in the certificate can

be a person, a role (e.g. Marketing) or the company itself for use as a corporate certificate.

About TC TrustCenter

For more than 10 years TC TrustCenter has been the partner for the financial sector and the industry with its solutions for authentication, verification and encryption.
